

Varn 100% Pure Gum Arabic 14° Be.

FOUNTAIN ADDITIVE

100% Natural Sudanese Gum Arabic Solution

Varn's solution is made from the highest quality selected raw material and is "MICROFILTERED" to remove even the finest impurities. 100% Pure Gum Arabic 14° Be. flows to a smooth, thin, uniform film and offers maximum protection on the plates for maximum performance in the fountain. It is formulated for use on all types of plates and may be diluted with water to obtain the proper consistency for a plant's individual requirements. Guaranteed nonsouring for a period of six months or more.

Benefits

- Microfiltered for purity
- Flows to a smoothly uniform film
- Effective on all metal plates
- Eliminates plate sensitivity

Directions

Varn 100% Pure Gum Arabic Solution contains no substitutes, additives or thinners. It is microfiltered to remove impurities and preserved to extend shelf life. Store in a cool place and keep the container closed when not in use. Use "as is" or dilute with water to desired consistency. Never place diluted gum back in the original container.
