# Varn® Revitol

Concentrated roller detergent and glaze remover

**Specialist rubber rejuvenator for all printing applications and press types**

## Product Features

- Varn® Revitol is a concentrated detergent developed to remove glaze, restore natural nap, revitalise and rejuvenate rollers and blankets.
- Varn® Revitol improves printing quality and reduces downtime by deep cleaning rollers, increasing their ink receptivity and optimising transfer.
- Varn® Revitol used daily is usually sufficient to keep rollers revitalised and can also be used between colour changes to reduce wash-up times and minimise start-up waste.

## Advantages of Varn® Revitol

- Stronger for quicker penetration.
- Restores life to rollers and blankets.
- Removes both gum and ink glaze.
- Deep cleans to improve ink transfer.

Features	Advantages	Benefits
<ul style="list-style-type: none"><li>Highly concentrated detergent.</li></ul>	<ul style="list-style-type: none"><li>Effective removal of both ink and gum glaze in one operation.</li></ul>	<ul style="list-style-type: none"><li>Revitalises and rejuvenates rollers and blankets, optimising print performance.</li></ul>
<ul style="list-style-type: none"><li>Non-aggressive to all rubber compounds.</li></ul>	<ul style="list-style-type: none"><li>Extends roller life if used regularly.</li></ul>	<ul style="list-style-type: none"><li>Reduced downtime and increased production.</li></ul>
<ul style="list-style-type: none"><li>Can be used regularly as part of the Varn press maintenance system.</li></ul>	<ul style="list-style-type: none"><li>Effective preventative measure.</li></ul>	<ul style="list-style-type: none"><li>Reduced maintenance costs.</li></ul>

## Product code

KU40-1RVG-#### (final 4 digits relate to pack size).

## Pack sizes

1 litre (O1AF), 10 litres (O1F9) and 200 litres (O1MP).

## Application

**Blankets:** Wipe the blanket with Varn® Revitol and allow time to penetrate. Varn® Revitol can be left on the blanket over-night or over the weekend, providing that the blanket is properly washed before press start-up. Apply to blankets, rubber rollers, rubber plates and dies during storage to reduce oxidation and maintain resiliency.

**Rollers:** Wash off the wet ink and run in a small amount of Varn® Revitol across one of the distributor rollers. Run in Varn® Revitol for 3 to 5 minutes, keeping rollers slightly wet. Advance the wash-up blade and wash up with a Varn® water miscible wash.

Follow relevant Good Manufacturing Practice (GMP) guidelines if used for the production of food packaging.

## More products. Streamlined access. Greater results.

Flint Group's Print Media division offers a uniquely powerful combination of products, services and expertise; giving you access to the industry's broadest range of pressroom products.

### **Inks and Coatings. Pressroom Chemicals. Blankets. Sleeves. Consumables.**

Rely on us for consistency, reliability and customer focus. Our aim is to make it easier for you to achieve your business goals. With Flint Group products in your pressroom, you can run your business with confidence and peace of mind.
